EDUCATION

University of Bristol | BSc Computer Science

Sept 2022 – Aug 2025

- **Predicted:** 1st Class Degree
- **Key Modules:** Functional, Imperative, Object-Oriented, Concurrent & Distributed Programming, Maths, Architecture, Software Tools, Algorithms, Data-Driven Computer Science, Cyber & Networks

St Brendan's Sixth Form College | A Levels

Sept 2019 – Aug 2021

- Mathematics (A*), Computer Science (A*), Business (A*), EPQ (A)

Downend Secondary School | GCSEs

Sept 2017 – Aug 2019

- 9 GCSEs A* - B – Including Mathematics (A) and English Language (A)

Experience

Bank of America | Software Engineering Intern (Electronic Cash Equity Trading)

June – Aug 2024

- Solved client trading production issues in OMS by troubleshooting FIX protocol discrepancies, enhancing trading stability.
- Automated load testing with **Python** and **Bash** reducing testing time by **94%**, from 24 hours to 90 minutes, now adopted globally by QA teams across the bank.
- Added features to FIX testing software using **Java** and **AMPS middleware** to improve Prod to QA testing accuracy.

Alfa Financial Software | Technology Intern

July 2023

- **Technology consultancy** - tackled customer queries and advised on how to optimize software usage for business needs.
- Enhanced **UI/UX** of Alfa's software using **HTML/CSS/JS** and developed Java software for asset finance company.

Pyng | Software Developer (Start-Up)

Mar – Aug 2023

- Optimised mobile payment transactions, improving transfer speed and UX, including seamless bill splitting.
- Leveraged **React Native** to elevate app UI/UX and developed Python-based transaction calculator.

upReach | Tech 500 Associate

Mar 2023 – Present

- Selected as a high potential undergraduate to join an accelerated professional development programme.
- **Tech500 Bootcamp 2023 Highlights:**
 - **G-Research:** Developed Python solutions to optimize decision-making in auction bidding challenge.
 - **Reply Group:** Integrated **Google Cloud** tools for machine learning, cloud storage, and data visualization, tailoring solutions to client needs.
 - **JMAN:** Assumed Data Science role for a client project; extracted and cleaned data using **Power BI, Excel**, and Python Libraries (**NumPy, Pandas**).

University of Bristol | STEM Outreach Ambassador & Teaching Assistant

Mar 2023 – Present

- Delivered Python and GCSE Maths lessons to disadvantaged students at a local secondary school.
- Taught two **Discrete Maths** modules (**Linear Algebra, Probability & Statistics, Combinatorics, Analysis**) and mentored 'Software Engineering Project' to first- and second-year undergraduates.

Projects

AI Social Media | Product Manager, Client Liaison & Developer (SpaceNXT Labs)

Sept 2023 – May 2024

- Implemented **Stable Diffusion** for AI-driven image generation, integrated **OpenAI API** for dynamic caption generation and utilized Google's API for trend analysis.
- Developed **Vue.js** front-end with back-end API integration for Twitter (X) and LinkedIn automated posting.
- Orchestrated agile development as product manager for a team of 5 and liaised with SpaceNXT Labs CEO.

Website Portfolio (Front-End Development)

July 2023

- Developed an interactive, user-focused [website portfolio](#) using **TypeScript**.

Scotland Yard AI Boardgame (Game Design)

Jan - May 2023

- Developed AI agent to play digital version of Scotland Yard boardgame using **Java**.
- Applied 'minimax game tree' and 'alpha-beta pruning' algorithms to optimize AI bot's winning performance.

Utopian World Simulation (Hackathon Game Design)

Feb 2023

- Used **C#** and **Blender** to model real-world environments adapting to geographical, demographic and political variables.

Mandelbrot Fractal Set (Interactive Mathematical Modelling Tool)

Sept 2020 – April 2021

- Utilised **NumPy** for efficient calculations and **SQL** for data management, including a Julia Set extension.

Skills & Achievements

Programming Languages: Python, Java, C, Go, Haskell, HTML/CSS/JS, React, TypeScript

Technical Skills: Git, Data Structures, Algorithms, Architecture, SQL, Linux, Imperative, Functional, Concurrent, Distributed and Object-Oriented programming, Bash, Linux, Quasar, Jira, JSON, Bash, Vim

Spoken Languages: English, Urdu

Achievements:

- **Bristol Plus Award:** Recognised among the top 5% University of Bristol students for outstanding work experience and extracurricular achievements. Mar 2024
- **'Bristol Scholar' & Access to Bristol:** Selected by sixth form as a high-performer in academia which granted me access to exclusive opportunities at the University of Bristol. Sept 2021 – Present
- **WeBuyAnyCar Sales Manager:** Consistent top performer across South-West, Wales and Midlands, leading in car purchases and bonuses. Jan – Sept 2022
